

## **Land. Arch. Maxim Hristov Yanev**

Forest Research Institute, Bulgarian Academy of Sciences  
St. Kliment Ohridski Blvd. 132, 1756 Sofia, Bulgaria  
Tel. (office): +359 2 9620447  
Mobile.: +359 885 867 406  
E-mail: yanev.maxim@gmail.com

**Date and birth place:** April 2, 1988, Stara Zagora, District Stara Zagora

**Research interests:** Landscape architecture, Maintenance of a permanent register in the urban areas (passportization), Examinations of ancient trees, Examination and diagnostics of woody vegetation, Pulse tomography of perennial woody vegetation, Risk management of woody vegetation, Carrying out measurements, by an arborist method.

### **Education:**

2020-present: Doctoral student in the field of higher education 6. Agricultural sciences and veterinary medicine, professional field 6.5 Forestry, scientific discipline Forestry, incl. Dendrology with thesis: "Modern methods for assessing the condition of woody vegetation in urban areas"  
2015: MSc in Landscape Architecture, Faculty of Ecology and Landscape Architecture - University of Forestry, Sofia  
2007: High School for Teaching Foreign Languages "Romain Rolland", St. Zagora

### **Training:**

2020: "Seilklettertechnik Stufe A - SKT A" - №TR03 - 29-2020 - Hemau, by Robert Preisler, "Tree Ranger" GmbH  
2020: "Rigging - Workshop" - №TR01-29-2020 - Hemau, by Robert Preisler, "Tree Ranger" GmbH  
2019: "Arborist level" A "- climber" - -19-9 - Sofia, Bulgaria, by Dimitar Zahariev - Association of Arborists in Bulgaria  
2019: "Work safety - Baum I / AS-Baum I" - №TR01 - 43-2019 - Hemau, by Robert Preisler, "Tree Ranger" GmbH  
2013: "Resistograph Professional Expert" - Heidelberg (Germany) - Rinntech - specialization organized by Frank Rinn  
2013: "Technical Tree diagnosis with Arbotom" - Heidelberg (Germany) - Rinntech - specialization in determining the condition of trees using pulse tomography, organized by Frank Rinn and Andreas Kraft

**Research projects:** Coordinator or participant in 2 national and international research projects. The projects for the last 5 years are listed below:

- Increasing the innovation capacity of the enterprise by developing an innovative service for inspection and assessment of the health of trees" - 600 pcs. trees. Program "Innovation and Competitiveness", BG16RFOP002-1.005-0299. Funded by: ERDF (European Regional Development Fund). Project manager: Rashid Rashid, Fortis Visio Ltd.
- Development of a map of the green system and phytosanitary expert assessment of existing ornamental tree vegetation on the territory of the municipality of Burgas "- 7000 pcs. №59-OP-95 (13) /30.01.2015. Funded by: Municipality of Burgas. Project manager: land. arch. Maxim Yanev, Dendro Protect Ltd.
